25X1A9a Our conference of 7 September with Mesers. of DD/P made it clear that these men, and the services they represent, have the potential for providing valuable assistance to 3/3P in the phase of its study which involves the travel of economic and technical personnel between the countries of the Free World and those of the Sino-Soviet Bloc.

2. I request, therefore, that you make the arrangements necessary for me to utilise these services within the DD/P area.
